Clapham College.
Occupation of the new buildings.

Dear Parents,

As you now know, we move into the new building at the times and on the days stated in year groups from March 1st. However, it now seems likely that certain classes may have to be sent home at very short notice, possibly for several days in some cases, as areas of the building are finished by the workmen. My colleagues and I much regret any interruption to your son's schooling and trust that he will work hard to offset this.

Thanking you again for your co-operation,

Yours sincerely,

M Gleeson.

P.S. The main school kitchens will not be in operation until after Easter for school meals. Temporary arrangements will be made as from March 1st.
